

Dr. Cuitiño is a Professor of Mechanical and Aerospace Engineering at Rutgers University. He is a member of the Rutgers Pharmaceutical Engineering Program (since 1995). Professor Cuitiño obtained a Civil Engineering Diploma from the University of Buenos Aires, Argentina, in 1986, and a MS degree in Applied Mathematics and a Ph.D. degree in Solid Mechanics from Brown University in 1992 and 1994 respectively. His research interests include multi-scale modeling, dislocation mechanics, consolidation of granular materials, modeling of solid foams, digital image correlation, folding patterns in thin films and modeling of ferroelectric polymers and ceramics. He is the author of several peer reviewed scientific articles and lectures at technical conferences, companies, and universities. Professor Cuitiño is currently the editor of *Mechanics* (a publication of the American Academy of Mechanics) and also the applied mechanics subject editor for the *Latin American Applied Research*. He has been a consultant to a number of drug and ingredient manufacturers on issues of ingredient properties and their effects on finished products.
