

Dr. Chetan Pujara is currently Senior Director and Head of Product Formulation Development at Allergan Inc, Irvine, CA. He provides strategic and scientific leadership to his groups responsible for developing controlled-release ocular implants, topical ophthalmic & dermal dosage forms, medical devices (CE marked products) and solid oral dosage forms.

Prior to joining Allergan, Chetan was employed by Abbott Laboratories in Illinois, where he held various positions in Global Pharmaceutical R&D gaining experience in development of solid oral dosage forms and pediatric oral suspensions.

His work experience includes preformulation, early & late-stage formulation development, clinical supplies manufacture, manufacturing process scale-up and tech transfer to commercial sites for NMEs & LCM of marketed compounds. In addition, he has contributed to CMC sections of global regulatory submissions for clinical trials and product approvals.

Chetan is an Adjunct Professor in the Department of Industrial and Physical Pharmacy, Purdue University, West Lafayette, IN and served on doctoral thesis advisory committees. He is the past-chair and current member of the Industrial Advisory board of NSF's Center for Pharmaceutical Processing Research. He has served as a faculty member for FDA OPS reviewer training sessions on Pharmaceutical Unit Operations and also served as a section leader for PQRI's Physical Properties Working Group.

Chetan received his B.S. degree in Pharmacy from BITS, Pilani, India and PhD in Pharmaceutics from Purdue University, West Lafayette, IN.
