

## **BIOGRAPHICAL SKETCH - DR. STEPHEN SCYPINSKI**

Dr. Stephen Scypinski received his B.S., M.S. and Ph.D. degrees in Chemistry from Seton Hall University. Involved in analytical and pharmaceutical chemistry research and applications for over 25 years, Dr. Scypinski has held positions at Berlex Laboratories, Hoffmann-La Roche, The R.W. Johnson Pharmaceutical Research Institute, and Eyetech Pharmaceuticals. He is currently Vice President, Analytical Research & Development for the Bristol-Myers Squibb Company. Dr. Scypinski's responsibilities and professional interests encompass the development and validation of analytical methods for drug substances and dosage forms, technical transfer, stability, and new technology as applied to the reduction of cycle time and enhancement of productivity in pharmaceutical development. He has filed or collaborated in the filing of over two dozen NDA/MAA submissions for both small molecule and biotech products. Dr. Scypinski is also active in the scientific community, having served as General Chairman of the Eastern Analytical Symposium and Chairman of the Laboratory Robotics Interest Group of New Jersey. He is a recipient of many awards, including the New Jersey Institute of Chemists Honor Scroll Award and the Laboratory Robotics Interest Group of New Jersey Career Achievement Award. Dr. Scypinski is the co-editor for The Journal of Pharmaceutical Innovation and is co-editor of the textbook "Handbook of Modern Pharmaceutical Analysis."
