

## **Biographical Sketch**

Dean and Professor, University of Minnesota College of Pharmacy.  
Previously was Department Head of the Department of Pharmaceutical Sciences at University of Maryland School of Pharmacy.

### Education:

B.S. Pharm., Purdue University, 1970

Ph.D., Medicinal Chemistry and Pharmacognosy, Purdue University, 1973

### Research Interests:

Dean Speedie's research experience and expertise include the following: enzymology and molecular biology of antibiotic biosynthesis, the expression and secretion of recombinant proteins in streptomycetes, and the microbial biodegradation of pesticides and other pollutants. Because of her administrative responsibilities, she doesn't currently have an active laboratory.
